

Capstone Two: Project Ideas

1. Disney Plus Movies and TV Shows.
 - a. Found in Kaggle.
 - b. Disney+ wants to know the most watched genre of movies and series of their stock to invest in the production of new series and movies, then, Disney+ want to reduce costs removing the least seen 30 movies, series and documentaries but they don't want to remove the films that are no more than 9 years produced.
2. New York City Bus Data.
 - a. Found in Kaggle.
 - b. 100 new buses will arrive in New York, so they want to know which routes are more transited to change that buses with the new ones and if it's possible, use around 30 buses to improve the buses routes and make less bus delays.
3. Zomato Bangalore Restaurants.
 - a. Found in kaggle.
 - b. Find the relation About the most related meals and the most requested meals.
